

## Who We Are

The Swing Left College Network supports student leaders and groups across the country working to transform our government in November.

From student debt to climate change to immigration, the upcoming elections will shape our future. We need a unified student movement to stand up to Trump's cruel policies and corrupt administration.

Millennials and Gen Z are more diverse and progressive than generations before, and now we're the largest block of registered voters in the electorate. When we work together on elections, we elect leaders who stand up for issues we care about and the values we believe in.

The Swing Left College Network is committed to empowering a national network of young leaders with the tools needed to create lasting change. Any student or campus group aligned with our mission can join the Network.

## What We Do

We're working to defeat Trump and the GOP up and down the ballot in November by winning the White House, the Senate, and the State Houses key to rolling back Republican gerrymandering. We'll do this by engaging voters in "Super States"—the battleground states where the key fights of 2020 will be won or lost.

We empower individual college students to make a difference in these important elections while developing their leadership skills and building long-term organizing power. And we focus on mobilizing campus communities located across the U.S. to vote *and* volunteer, maximizing their impact.

We support members of the College Network in three main ways:

- **Strategy:** Swing Left does the homework for you, pointing students to key geographies and effective voter contact opportunities.
- **Resources and tools:** The College Network provides access to free resources and tools that are specific to college organizing. We also give Network members one-on-one coaching and direct support from Swing Left organizers.

- **Connections:** We build power through our relationships. The Network connects student leaders across the country to learn from each other, collaborate, and make change together.

## What We Value

Our values center us in ensuring that young people's lives are at the center of our movement.

- We are **inclusive of all** genders, diverse backgrounds, and communities impacted by structural inequality.
- We **center youth voices by intentionally developing student leaders** to speak for their own generation.
- We **focus on tangible and impactful actions** you can take now to win in 2020.
- We don't take sides during the primaries but we do **organize year-round** in key geographies to elect the eventual Democratic nominees in the most important races impacting our country.
